	DCVAS RESEARCH PROPOSALS up to OCTOBER 2016								
	Title	Abstract/paper	Year	DCVAS Presentation/Publication details					
L7	Seasonal Variation in Incidence in Giant Cell Arteritis (GCA)								
18	Derivation and validation of guidelines for ANCA testing								
19	A comparison of vascular image assessment to VDI in large vessel vasculitis								
20	Stroke in primary systemic vasculitis: DCVAS stroke substudy	European Stroke Conference 2013 poster		Geraldes, R, Fonseca AC, Canhão P, Pinho e Melo T, Ferro J, Watts R, Merkel P, Grayson P, Robson J, Craven A, Suppiah R, Luqmani R. Stroke in primary systemic vasculitis: DCVAS stroke substudy					
21	Incidence and prevalence of peripheral neuropathy in primary systemic vasculitic disorders-towards improving the diagnosis of primary vasculitis								
22	Identification of Risk Factors Predicting Renal Involvement and Severity of Renal Impairment in ANCA-Associated Vasculitis								
23	Development of new cardiovascular risk factors in the systemic vasculitides								
24	Frequency of small vessel involvement in LVV								
25	Predictors for severe cardiovascular complications in Takayasu's Arteritis								
26	A comparison of ENT lesions among anca-associated vasculitis								
27	Pulmonary involvement across vasculitides								
28	Smoking status in Behcet disease								
29	The patient perspective in Giant Cell Arteritis								
30	Seasonal variation in ANCA associated vasculitis (link with RP17)								
31	Identification of biological signatures and markers in adult vasculitis								
32	Evaluating the predictive role of diabetes in vasculitis								
33*	Methodology for data reduction/clinical vignette review								

\* Core projects for classification and diagnosis
